

SCHEDULING STATUS:

Unscheduled - cosmetic product

PROPRIETARY NAME AND DOSAGE FORM:**Centar gel****COMPOSITION**

Key active Ingredients:

Copper Tri-peptide
Beta Glucan
Centella Asiatica Ultra Distillate (UDCA)
Panthenol
Extremolytes
Hyaluronic Acid

PRODUCT ACTION:

The synergistic action of the key active ingredients in Centar gel assists in significantly reducing levels of inflammation that occur in the deeper layers of the skin. Preventing the entry of harmful cells and chemicals in the area of a scar or stretch mark assist in reducing the formation or even progression of the abnormal lesion. At the same time, powerful peptides significantly increase new healthy collagen protein as well as new blood vessels to assist in timely healing or repair of the affected area. Centar gel is formulated at maximum possible concentrations of its key active ingredients.

INDICATIONS:

Centar gel is indicated for the prevention of or improvement in the appearance of newer, red stretch marks as well as closed red scars.

CONTRAINDICATIONS:

Hypersensitivity to any of the ingredients

WARNINGS:

This product is to be applied to intact skin
For external use only
