

HOW TO USE MATRICOLL®

Take three capsules daily with a meal, ideally one that includes healthy fats to improve the absorption of fat-soluble ingredients. Capsules may be taken all at once or split throughout the day.

Avoid use if allergic to fish, shellfish, or marine products. Take caution if you have conditions such as gout, severe liver, kidney issues, or if you are pregnant or breastfeeding. Those on blood-thinning or diabetes medications should seek medical advice before use.

MATRICOLL® ECM

REPAIRS

Restores collagen & repairs barrier

REBUILDS

Boosts elasticity & dermal strength

PROTECTS

Defends against oxidative & UV damage

THE NEW STANDARD IN ANTI-AGEING

MATRICOLL® ECM

THE NEW STANDARD IN ORAL SKIN ANTI-AGEING

MATRICOLL® ECM by Lamelle Pharmaceuticals is a groundbreaking oral anti-ageing supplement. Formulated with advanced bioactive peptides and synergistic natural ingredients, it works deep within the Extra Cellular Matrix (ECM) to target collagen, elastin, and hyaluronic acid all at once, delivering firmer, smoother, and more radiant skin.

Unlike first generation collagen supplements, **MATRICOLL® ECM** embraces the complexity of skin ageing with a multi-targeted approach for superior, more rapid results.

Pharmaceuticals

THE SCIENCE OF MULTI-TARGETED ANTI-AGEING

While many anti-ageing supplements focus on collagen alone, **MATRICOLL® ECM** moves oral anti-ageing skin supplements into the future by combining:

MATRICOLL® – 1 000 mg

Highly concentrated, rapidly absorbed tri- and di-peptides to support skin remodelling by targeting cell specific receptors, giving you more anti-ageing benefits.

PG Elastin – 100 mg

Highly concentrated elastin tetra-peptides that enhance elastin production, restoring skin bounce and resilience, reducing sagging and loss of firmness.

Low Molecular Weight Hyaluronic Acid – 200 mg

Delivers deep hydration that encourages your skin to attract more water, while helping to protect its natural supply.

Astaxanthin – 5 mg

A powerful antioxidant 6 000 times stronger than vitamin C that shields skin from oxidative stress and photo-ageing.

Niacinamide (Vitamin B3) – 200 mg

Supports DNA repair, enhances cell energy production, and supports the skin barrier for lasting protection.

THE MATRICOLL® ECM DIFFERENCE

This multi-targeted strategy enhances ECM repair, combats oxidative stress, reduces inflammation, and improves skin barrier function. Clinical trials demonstrate improvements in skin hydration, elasticity, wrinkle reduction, and overall radiance, with faster absorption and greater potency.

Its ultra-concentrated peptides are absorbed up to 10 times more effectively than standard collagen, making it the smarter choice.

REPAIRS
RESTORES COLLAGEN & REPAIRS BARRIER

REBUILDS
BOOSTS ELASTICITY & DERMAL STRENGTH

PROTECTS
DEFENDS AGAINST OXIDATIVE & UV DAMAGE

BACKED BY SCIENCE, LOVED BY SKIN

Clinical evidence shows that with daily use, **MATRICOLL® ECM** delivers measurable benefits that appear sooner, and go deeper, than typical collagen only solutions.

Expect:

- Up to 25% improvement in elasticity
- Up to 30-40% increase in hydration
- Up to 20% wrinkle reduction
- Up to 20-30% improvement in dermal density
- Up to 15-20% improvement in complexion luminosity

As every ingredient works in synergy, your skin will look firmer, smoother, and more radiant in just four to eight weeks, rapid results that other products often struggle to achieve.
